

### Cable Glands

#### BACKGROUND

Key Oil & Gas OEM's require an ATEX rated explosion proof cable sealing solution that can be used for terminating hard-wired and connector solutions alike.

#### PROBLEM

Connector and cable gland suppliers could not offer a complete solution. Customers were forced to buy connectors from one source, and then buy cable glands from another.

#### AIO SOLUTION

Amphenol Industrial's Cable Gland product range includes general duty industrial cable glands meant to seal on unarmored cable, right up to our ATEX approved EX glands capable of protecting the most rugged cable in your zone rated applications.
